

PRESS RELEASE - MAZDA MOTOR EUROPE

All-new Mazda CX-60 PHEV with over 300 hp will premiere on 8th March 2022

- All-new Mazda CX-60 PHEV to be new flagship in European SUV line-up
- 2.5l plug-in hybrid with over 300 hp, the company's first PHEV

Leverkusen, 8 February 2022. Making its debut on 8th March 2022, the all-new Mazda CX-60 PHEV is the first of two new models from the company's Large Product Group* that will be introduced throughout Europe during the next two years.

The CX-60 PHEV demonstrates Mazda's commitment to a multi-solution approach to sustainable mobility and the principal of the right solution at the right time. It will be joined in the future by the CX-80 which will feature three-row seating.

The Mazda CX-60 PHEV will spearhead the European introduction of plug-in hybrid models with a powertrain which combines a 2.5 litre, straight-four gasoline engine with a performance-enhancing electric motor resulting in a power output in excess of 300 hp.

Mazda's first PHEV powertrain will offer smooth, efficient and powerful acceleration giving the driver greater confidence and driving enjoyment in the widest possible range of driving scenarios.
